Azeroth defense strategy mod

Joining August 18, 2018 Messages 11,940 Points 113 Azeroth (defensive strategy) 1.9.3 time_update Currently all games do not support Android 11, you need to reinstall the lower version of android. Preview Mode: Azeroth breaks the classic real time fighting the game, where thousands of players can play on the same screen. You can use various matches of heroes, soldiers, skills, race and prize response to monster attacks. With different stories in checkpoints or battles, you'll definitely be attracted to it. In this game, there are 3 big races, 10 types of troops, 12 heroes, 15 types of manual skills and 573 auto skills. Players can arrange their favorite tactics for attacking responses from hundreds of different monster groups. In this game, players can choose from 12 heroes with different skills and levels up to them, or choose warriors, hunters, mages, knights, pastors, wizards from 3 large races, all of which are with fine skills. By organizing them to deal with monster teams. In the face of monsters with different skills and powers, players need to compare different military races, to provide unexpected power. Prompt: Click the screen to place and move the hero, with skilled operations, you can easily hide from attack and magic, with advanced positions, you can make monsters gather together and attack them heavily. Monsters with more blood are with strong shields too, but their ability to withstand magic is quite weak. An archer can also kill him. For those wizards and skeletons, or monsters with long-distance harm capabilities, we recommend players to control your heroes well and kill them on time. Each monster has weak characteristics and points, you can crack on your own. TIP: Crash games, close force, can't start. How to fix it? It's a game that combines tactics and elements of roleplay with defensive towers. You and other players have to fight each other in a fierce battle. The game has many different strains, along with different types of soldiers. The number of skills and magic also makes you spend a lot of time learning. This is entirely appropriate during the Covid-19 break during the current period.
