Published november 19, 2020 When you want to improve your workflow, you must have the appropriate computer. And one of the most appealing computers is the macbook. These sleek laptops allow you to work anywhere at any time and provide a lot of functionality to their users. But sometimes, it's not enough. In so many cases, you're asking for more. While you might go for some productivity apps, there are actually plenty of macbook plugins available to make your life easier in many ways. These add-ons will allow your macbook to charge faster, hold more data, or keep safe and protect while traveling around. In addition, there is a wide variety of accessories to choose from as many companies have jumped on the supply bandwagon of Macbook users. Below are some of the biggest macbook plugins that will benefit your computer. What does it do for great Macbook accessories? Before we entered the list, we wanted to pass the criteria for what constitutes great macbook accessories. The items we selected from this list will have the following criteria: Reasonable Price - The add-ons themselves shouldn't break the bank compared to a large initial macbook investment. Usability - All these accessories are practical in various situations, however, they also have additional features that make them useful in several situations beyond their obvious functions. Compact - A workflow is also about space in most circumstances. As such, anything that's too bulky doesn't help much. These accessories are either deliberately large - to store other items - or they are beautiful and compact so they won't get in the way. USB file storage drive quickly without access to the Cloud! whether you can always access the Cloud at any time, sometimes accessibility can be clunky or take time. Instead of trying to access files in this way, getting a USB flash drive can save you enough time. Especially if your work entails providing presentations. The SanDisk Ultra Dual Drive is great because it offers USB-C and USB-A connectors that allow you to connect to almost any device and upload files and more between computers. Also, USB drives these days boast several hundred gigabytes, making them solid storage devices. Buy SanDisk Ultra Dual Drive here. A compact charger that works more than the ChargeYour default charger that comes with your MacBook is a good choice for a charger, but these days chargers can offer much more. This can help you speed up your workflow because you can charge other devices or use the charger for purposes other than charging. In the case of an Anker PowerPort charger, it's more compact than the default charger. It also offers another USB-C connector that allows you to quickly charge another gadget with it. Buy an Anker PowerPort charger here. Port Adapter for those with multiple devices Is it of hard limitations with macbook that it has only two USB-C ports. This can be controlled for people with fewer gadgets, but You're the kind that has several, can stop a workflow if you need a specific device and can't charge or access it. In such a situation can help port adapter from Satechi. It offers multiple USB-C ports that allow you to use multiple devices. It can also help organize cables that we know can disrupt work. If USB-C ports aren't enough, it also comes with an SD card reader and an ethernet cable port. Buy a Satechi Multi-Port adapter here. A USB cable that is not so intrusive or bulky to use a USB-C cable that comes with Macbooks is small and is used to connect to an external monitor. By adding more length to them, you can have better cable management. One option we found ideal was a nomadic Kevlar cable that offers enough length to do what you want while giving you more room to work. Buy a Nomad Kevlar USB-C cable here. Cleaning the screen of a laptop to see what you are doingDust, particles and stains can be expected on laptop screens after a while. Although you can bypass them, sometimes they can blur your vision. The same can be applied to all devices these days. The only problem with many solutions on the market is that they can damage screens. Luckily, we found a screen cleaning solution that doesn't hurt the screens. The ScreenDr Professional screen cleaning kit comes with a screen-safe spray and a microfiber antimicrobial cloth to make sure you take advantage of the spray as much as you can. Buy screenDr professional screen cleaning kit here. Card reader that speeds up photo upload time If you are looking for a standalone card reader for your work, it is crucial to get a device designed to upload and read photos. One of the best macbook accessories in this category we found was the Vanja card reader. This one is able to read SD and MicroSD cards, while also transferring images to your computer with ease thanks to usb-C and USB 2.0 port options. It's also small which makes it easy to carry and is cheap to buy which makes it a great choice to pick up if you're dealing with lots of pictures. Buy Vanja Card Reader here. Protective sleeves to protect your laptop from HarmFor those who travel the last thing you want is your laptop to be damaged for any reason. While you probably won't drop it as often as your phone, a laptop sleeve can save you time. One sleeve we found interesting was native union sleeves. They are made of tear-resistant material with real leather accents. Its interior is soft, as well as prevent scratches from the laptop. It also offers pocket space where you can easily store cables and other macbook accessories. Buy native union laptop sleeve here. Car charger For charging on GoFor the person who always drives around, the car charger is always a useful tool you can have when you're driving. One Ankera is especially useful in a number of ways. Not only can this charge your macbook, but it also has an extra port charge your phone if necessary. It is not the fastest charger compared to the Macbook Pro adapter, but it is the highest on the market with an output power of 30 watts. For comparison, the second fastest charging connector offers an output of 18 watts. It also has a function that ensures that devices do not experience surges or overheating from the charger itself. USB-C to USB-A adapter gives access to older modelsAs your older macbook still works, but has files that you wish you hadn't returned that you want it makes it easier to access them. It also gives you access to devices that only have USB-A slots. This can save you a lot of time if you move between older and newer devices. Buy a Thunderbolt adapter here. Hardshell case for added protectionA sleeve is good for travel, but when using it, having an extra layer of protection can be nice. In addition, this hardshell case can also serve as an additional protection against scratches and bumps. Buy the Incase Textured Hardshell case here. Alternative sleeve for those with tighter budgets, but want protectionIf you are looking for a suitable laptop sleeve, but do not want to spend too much, AmazonBasics brands are a good alternative. Their sleeves are elegant and still offer good scratch protection. It also has several pockets for small essentials. Buy an AmazonBasics laptop sleeve here. Hub that receives several ports at once We already mentioned the port before it was a great time saving thanks to having various ports for different devices. This one is a great alternative because while it doesn't offer as many USB-C ports, it offers more variety. Paired with the same-color design as the MacBook Air, it offers two USB-C connectors, two USB 3.0 ports, an HDMI port, and SD and microSD card readers. Buy a Satechi Type C Pro Hub here. Headphones for solving fewer headphone cablesUses are a common problem when increasing productivity at the table, and one way to mitigate them is wireless. If you're thinking about it, one option to consider is soundcore headphones. These are cheaper than traditional Apple AirPods that can save you money. Furthermore, they deliver great audio and are connected via Bluetooth. The beauty of these headphones is that they can also cancel audio despite being so compact. They also offer touch control that lets you pause, play, skip music, and answer calls. Buy Soundcore wireless headphones here. Desktop Stand To Save Desk SpaceDesk space is another key part of productivity because things can get in the way and interfere with your work. In cases where you don't need a laptop right now, having a rack where you can set it aside can be helpful. In these situations, we recommend twelve Southern Arc books. This neat Macbook accessor can save a ton of space by requiring you to close laptop to insert it into the rack. It also keeps it elevated from a surface that can protect it from spillsBuy Twelve South BookArc table racks here. Comfortable and easy to use mouse for faster working speed The last of the macbook accessories we'll be talking about is a real mouse. Logitech offers fantastic mice, and their Logitech MX Master 3 is one of the largest wireless mice. It's an ergonomic design, customizable buttons and insanely precise movement is fantastic. It also comes with a scroll wheel to move accurately. The battery can last for months between charges and like all Logitech devices, it comes with a USB-C charging connector. Buy logitech MX Master 3 Wireless Mouse here. Bottom LineThere are many macbook add-ons to improve your workflow. Taking time to explore and invest in some of the best will still save you enough time, money and energy in the long term. At the same time, all these supplements can help you with certain needs for everything you do. Featured photo: Viktor Ritsvall via unsplash.com unsplash.com
